

SHEERVIEW BLIND SYSTEMS

SHEERVIEW 6.1

THE VERTILUX SHEERVIEW® SYSTEM IS BOTH VENETIAN AND ROLLER BLIND IN THE ONE BLIND MAKING IT ONE OF THE MOST VERSATILE AND INNOVATIVE WINDOW COVERING SYSTEMS FOR BOTH RESIDENTIAL AND COMMERCIAL SETTINGS.

(iv)

(v)

(i)

(ii)

(iii)

Made from Polyester the Sheerview® Blind System is two layers of sheer fabric, separated by a series of soft vanes.

Open the vanes (i) to filter the light while allowing the outside view. Tilt the vanes (ii) to soften the light and the view. Close the vanes (iii) to provide complete privacy without total darkness.

Choose from sheer fabric with translucent (iv) vanes or room darkening (v) vanes.

The Sheerview® Blind colour palette is a range of soft neutrals.

SHEERVIEW® TECHNICAL DATA

Composition	Polyester
Minimum Width	300 mm
Maximum Width	2740 mm
Minimum Drop	300 mm
Maximum Drop	3050 mm Translucent 2440 mm Room Darkening
Fabric Thickness	0.25-0.33 mm
Vane Width	Brilliance 65mm Translucent Mystique 65mm Room Darkening

Solar Optical Properties

	Ts	Rs	As	Tv/Vlt	RI	AI	Tuv	Sc
65mm Brilliance Translucent	32	63	5	29	47	24	3	0.40
65mm Mystique Room Darkening	0	68	34	0	52	46	0	0.29

Solar Optical Properties Guide

Ts: Solar Transmittance (%)
Rs: Solar Reflectance (%)
As: Solar Absorbance (%)

Tv/Vlt: Light Transmittance (%)
RI: Light Reflectance (%)
AI: Light Absorbance (%)

Tuv: Ultraviolet Transmittance (%)
Sc: Shading Coefficient
